

NURSING OUTLOOK

The Official Journal of the American Academy of Nursing

The Official Journal of the Council for the Advancement of Nursing Science

EDITORIAL POLICIES

Nursing Outlook welcomes unsolicited manuscripts related to nursing education, practice, research, or healthcare policy and delivery. All manuscripts are accepted for publication with the understanding that they are contributed solely to *Nursing Outlook*. On acceptance, manuscripts become the permanent property of the Journal and may not be reproduced elsewhere without written permission from the publisher. Papers written to meet course requirements generally are not accepted unless they have been edited and conform to the mission and scope of *Nursing Outlook*.

MANUSCRIPT PREPARATION

Nursing Outlook uses a Web-based online manuscript submission and review system. Please visit <https://www.editorialmanager.com/ymno> to submit your manuscript electronically. The website guides authors stepwise through the creation and uploading of the various files. Note that original source files, not PDF files, are required. Please plan on the review process taking approximately 8-10 weeks, with some variability depending on the availability and responses of busy volunteer reviewers. Authors may send queries concerning the submission process manuscript status or journal procedures to the Editorial Office. Once the submission files are uploaded the system automatically generates electronic (PDF) proof, which is then used for reviewing. All correspondence, including the Editor's decision and request for revisions, will be by e-mail.

General requirements. Submit 1 copy of the manuscript and supporting materials (reference list, tables, figures, and figure legends) in electronic format to: <https://www.editorialmanager.com/ymno>. First time corresponding authors will need to register in the system to obtain a user ID and password. If the corresponding author has previously registered in the system, they may proceed directly to submit paper to begin the submission process. Assistance with submitting manuscripts to the Web-based system may be obtained by contacting Julia Snethen, Associate Editor, at julia@uwm.edu. A copyright release will be required at the time the manuscript is accepted for publication.

Number all pages of the manuscript (including reference list, tables, and figure legends) in the upper right-hand corner of the page, beginning with the title page.

The body of the manuscript and supporting materials should not contain any reference to identify the author(s).

Title page. The title page should include the manuscript title and the full names of the authors, their highest earned academic degrees, and their institutional affiliations and status. Authors who are doctoral candidates must not use the PhD(c) or DNP(c) notation until they have successfully completed all requirements for their degree and have been approved for the final degree designation (ie PhD or DNP). If this is used the notation will be edited during copy editing. Give the complete mailing address, business and home telephone numbers, and e-mail address of the author to whom correspondence and galley proofs should be directed. If applicable, include a brief acknowledgment of grants or other financial assistance.

Abstract. A structured abstract of approximately 150 words in length including the headers *background*, *purpose*, *method*, *findings*, and *discussion* for database papers or a summary abstract of approximately 150 words for non-databased manuscripts should be typed double-spaced on a separate sheet of paper after the title page.

Length. Manuscripts should be no longer than 12 to 15 double-spaced typed pages except under unusual circumstances. Approximately 3.5 manuscript pages equal 1 journal page.

References. American Psychological Association (APA).

Examples:

Journal article. Massey, J., & Loomis, M. (1988). When should nurses use research findings? *Applied Nursing Research*, 1, 32-40.

Journal article in a journal paginated by issue. Mooney, N.E. (1982). Coping with chronic pain in rheumatoid arthritis. Patients behaviors and nursing interventions. *Orthopedic Nursing*, 1(3), 21-25.

Complete book. Pollack, M.L., Wilmore, J.H., & Fox, S.M., III (1984). *Exercise in health and disease*. Philadelphia: W.B. Saunders.

Chapter in a book. Dracup, K. (1987). Critical care nursing. In J.J. Fitzpatrick & R.L. Tauton (Eds.), *Annual review of nursing research* (pp. 107-133). New York: Springer.

Figures and legends. Number figures consecutively in the order of text mention; all illustrations must be mentioned in text. Spell out in the legends any abbreviations used as labels on figures. If the figure is taken from previously published material, the legend must give full credit to the original source. Contact editorial office or refer to online information for authors for complete instructions regarding electronic submission of illustrations.

Tables. Do not submit more than 4 tables. Number tables consecutively in the order of text mention; all tables must be mentioned in the text. Data appearing in tables should supplement, not duplicate, the text. Provide a brief title for each table, and provide a footnote to the table spelling out any abbreviations used therein. If the table is taken from previously published material, a footnote must give full credit to the original source.

PERMISSIONS AND CONSENTS

Send written permission of the copyright holder and author for any quotation, table, or figure taken from previously published material. Patient or guardian consent must accompany any photograph that shows a recognizable likeness of a person.
