Next Editor in Chief Selected

Elsevier and the American Academy of Nursing are pleased to announce that Sean Clarke, PhD, RN, FAAN, has been selected as the next editor in chief of Nursing Outlook. His editorship will begin in 2023, following the tenure of Marion E. Broome, PhD, RN, FAAN, who has led the journal for 20 highly successful years.

Dr. Clarke is executive vice dean and professor at the New York University Rory Meyers College of Nursing in New York. He is a health outcomes and policy researcher specializing in nursing issues and has particular interests in the nursing workforce, nurse occupational health, organizational contexts of quality and safety of practice, program and policy evaluation, and comparative health systems. He has published widely in these areas and has taught nursing and health policy in universities in Canada, the US, Europe, and Asia at the bachelor's through doctoral levels for over 25 years. In addition to research collaborations, speaking and consultation globally, he has been involved in journal editing and editorial boards for nursing and health sciences journals since the beginning of his career.

A fellow of the American Academy of Nursing, **Dr. Clarke has been a member of the editorial board of Nursing Outlook for the past 5 years and is very excited to work closely with stakeholders to continue the proud traditions of the journal as the leading venue for research and scholarship about the evolution of the nursing profession and its role in society.**

Now in its 70th year of publication, Nursing Outlook is the official journal of the American Academy of Nursing. President Kenneth R. White, PhD, AGACNP, ACHPN, FACHE, FAAN, said, "I am thrilled that Dr. Sean Clarke will take on the role of editor of the Academy's journal, Nursing Outlook. Given his research focus on the nursing workforce, with a specific lens on the economic and political drivers for change, I know he will take the journal to new heights.

"As we approach this transition, the Academy shares its deep appreciation and gratitude to Dr. Marion Broome for her tremendous leadership as the journal's Editor for nearly twenty years."
